

# PREDICT CLIMATE

TREE'S RINGS DON'T ONLY  
REVEAL ITS AGE, THEY CAN  
ALSO INDICATE THE  
OCCURRENCE OF NATURAL  
DISASTERS

## SELF- DEFENCE

TREES EMIT CHEMICALS  
THAT ATTRACT ENEMIES,  
LIKE LEAF EATING  
INSECTS

"NEW  
THINGS  
TO  
KNOW"

## CAN MIGRATE?

TREES CLEARLY CAN'T UPROOT  
THEMSELVES, BUT THEIR  
POPULATION CENTERS CAN SHIFT  
OVER TIME IN RESPONSE TO CLIMATE  
PRESSURES.

## A MEDICIAN,

KIDS LIVING IN PLACES  
WITH MORE TREES HAVE A  
LOWER CHANCE OF ASTHMA
